

I installed this BMK21 By-Pass Kit with an EaBP100 filter on a 2007 F-350 Crew cab Dually. To simplify the install and reduce hose length I used the optional Aluminum Billet Oil Filter Cap (BK1101), the Aluminum Billet Oil Fill Cap (BK1102) and the 90-degree JIC Elbow (BP242). The install was very straight forward, with the most time consuming part fabrication of a bracket to hold the filter.
